

PEMERIKSAAN PRODUK INDUSTRI DAN KONSUMEN

SBU INDUSTRIAL AND CONSUMER PRODUCT

PRODUK KONSUMEN

SUCOFINDO dapat membantu pembeli, importer maupun pengecer produk konsumen untuk mengurangi resiko akibat mutu yang tidak sesuai, kesalahan merk dan kemasan barang yang dibelinya melalui: pengambilan contoh, pemeriksaan kuantitas kualitas, pengawasan pemuatan pembongkaran, evaluasi pabrik, pengujian fungsi barang dan pemeriksaan secara visual.

CONSUMER PRODUCT

SUCOFINDO can help the buyers, importers and retailers of consumers products to reduce the risk of improper quality, mistaken marking and packaging as well as the risk of delay in delivery of commodities through the following activities: Sampling, quality inspection, loading-discharge supervision, factory evaluation, functioning testing and visual inspection.

PRODUK INDUSTRI

Jasa SUCOFINDO memberikan rasa aman kepada pelanggan karena kesesuaian kuantitas, kualitas dan penyerahan produk industri terhadap standar yang digunakan dapat lebih dipastikan pemenuhannya, meliputi: pengambilan contoh dan analisis, pengawasan pemuatan - pembongkaran - penimbangan - penerimaan - penyerahan - pemeriksaan kerusakan - draught survey, dll.

INDUSTRIAL PRODUCT

SUCOFINDO services provide security for client as conformity product quantity, quality and delivery to the applied standards which is exactly applied, such as: sampling and analysis, supervision of loading-discharging-weighing-receiving-delivering, damage checking, draught checking, etc.

JASA PEMERIKSAAN PASOKAN DAN RITEL MAKANAN

Tuntutan konsumen semakin tinggi akan produk yang mampu memenuhi syarat-syarat keamanan dan higienisitas, konsistensi mutu dan nilai jual produk. SUCOFINDO membantu mengatasi resiko ini melalui sertifikasi HACCP, audit gerai & mata rantai pasokan makanan, pelatihan keamanan pangan, evaluasi pabrik dan pemeriksaan laboratories.

INSPECTION SERVICES ON FOOD RETAIL AND SUPPLY

Consumers demands for food products with high degree of hygiene and safety as well as consistent quality and product selling value will always require that SUCOFINDO is committed to managing risks with HACCP certification. They will audit the food suppliers and the food outlets by inspecting the food hygiene and sanitation, by evaluating the food safety training, and by the evaluation of the factories and laboratories in general.

JASA-JASA UMUM

SBU GENERAL SERVICES

JASA KESELAMATAN DAN KESEHATAN KERJA

Penerapan Sistem Manajemen Keselamatan dan Kesehatan Kerja (SMK3) dimaksudkan agar perusahaan dapat meminimalkan resiko, mengurangi tingkat kecelakaan kerja, memaksimalkan efisiensi dan pada akhirnya meningkatkan produktifitas khususnya bagi yang sedang menyiapkan diri menghadapi tuntutan dan persaingan bisnis global.

OCCUPATIONAL SAFETY AND HEALTH SERVICES

The implementation of OSH Management System is aimed at enabling companies to minimize risks, to reduce their accident rate at the workplace, and to maximize efficiency of the companies for facing the challenges of global market competition.

JASA PENGELOLAAN PROPERTI

Kegiatan Jasa Manajemen Properti SUCOFINDO meliputi pemasaran property, riset dan analisa pasar, pemeliharaan pelayanan pelanggan, manajemen gedung (pengoperasian, pemeliharaan, keamanan dan kesehatan kerja), jasa manajemen proyek, konsultan property, manajemen audit bangunan, pemakaian dan studi kelayakan property.

PROPERTY MANAGEMENT SERVICES

The activity of SUCOFINDO Property Management includes property marketing, survey and market research, customer maintenance, building management (operation, maintenance and also occupational safety and health), project management services, property consultancy, building audit management, well-used and property feasibility study.

JASA LABORATORIUM

Labolatorium Pusat SUCOFINDO merupakan salah satu labolatorium terbesar di Indonesia dengan fasilitas terlengkap yang mampu menangani berbagai pengujian yang berkaitan dengan mutu dalam hubungannya dengan keselamatan, keandalan dan kinerja produk atau kualitas material, didukung oleh sumber daya manusia yang terlatih, peralatan yang mutakhir dan jaringan yang luas.

Labolatorium Penguji

- Labolatorium Analisa Kimia Lingkungan
- Labolatorium Analisa Produk Konsumen dan Industri
- Labolatorium Analisa Produk Agri, Oil dan Gas

Labolatorium Teknik

- Pengujian EMC
- Pengujian Keesamanan Produk
- Pengujian Mekanik

LABORATORY SERVICES

Central laboratory of SUCOFINDO is one of the biggest laboratories in Indonesia. Equipped with complete facilities, it is capable to handle various test services concerning with quality standard related to safety, reliability and product performance or material quality. In addition, it is also supported by well-trained personnel, up to date equipments and large business networks.

Test Laboratory

- Laboratory for Environmental Chemical analysis
- Laboratory for Industrial and Consumer's Product analysis
- Laboratory for Agricultural, Oil and Gas Product Analysis

Technical Laboratory

- EMC Test
- Safety Product Test
- Mechanical Test

Labolatorium Kalibrasi

Kalibrasi peralatan ukur, transmitter, FDU, dan kontrol merupakan aspek paling penting untuk mengetahui mutu hasil pengukuran atau pengendalian dapat dijamin keterlulusannya ke standdar nasional atau internasional. Labolatorium kalibrasi SUCOFINDO telah diakreditasi oleh KAN-BSN NO. LK. 023 IDN sejak tahun 2000 dan mampu mengkalibrasikan peralatan untuk bidang Gaya, Massa, Tekanan, Temperatur, dimensional, volume, dan Kelistrikan.

Calibration Laboratory

Calibration of measuring tools, transmitter, FDU and controls are the most important aspects to identify the quality results of measuring or controlling products. Calibration of measuring or controlling result is the only way to guarantee their investigation toward the national or international standards. Calibration laboratory of SUCOFINDO has been accredited by KAN-BSN NO. LK. 023 IDN SINCE 2000, and is able to calibrate measuring tools, in scope of Force, Mass, Tension, Temperature, Dimension volume, and Electricity

JASA SANITASI DAN MANAJEMEN HAMA

Hama menjadi masalah di lingkungan perumahan, perkantoran, perhotelan, restoran bahkan objek-objek wisata, pesawat, kapal, bus, kereta api, industri pertambangan, pabrik dan lain-lain. Pelayanan sanitasi SUCOFINDO yang terprogram melalui penyemprotan beresidu untuk serangga yang merayap (indoor & outdoor), pengasapan untuk serangga terbang (outdoor), system pengumpanan (pellet, lem, gel, dll) atau fumigasi, memungkinkan kondisi bebas gangguan hama dalam periode waktu yang lama.

SANITATION AND PEST MANAGEMENT SERVICES

Pests can be a big problem in our environment, our housing, our offices, hotels, restaurant, mining industries, factories, or even tourism objects such as commercial aircraft, ships, buses, or trains. Sanitation services of SUCOFINDO are systematically programmed through residual spraying for crawling insects (indoor & outdoor), fogging for flying insects (outdoor), using a baiting system (pellet, glue, gel, etc) or fumigation which may make each situation free of pest infestation for a long period.

SISTEM MANAJEMEN PENGAMANAN

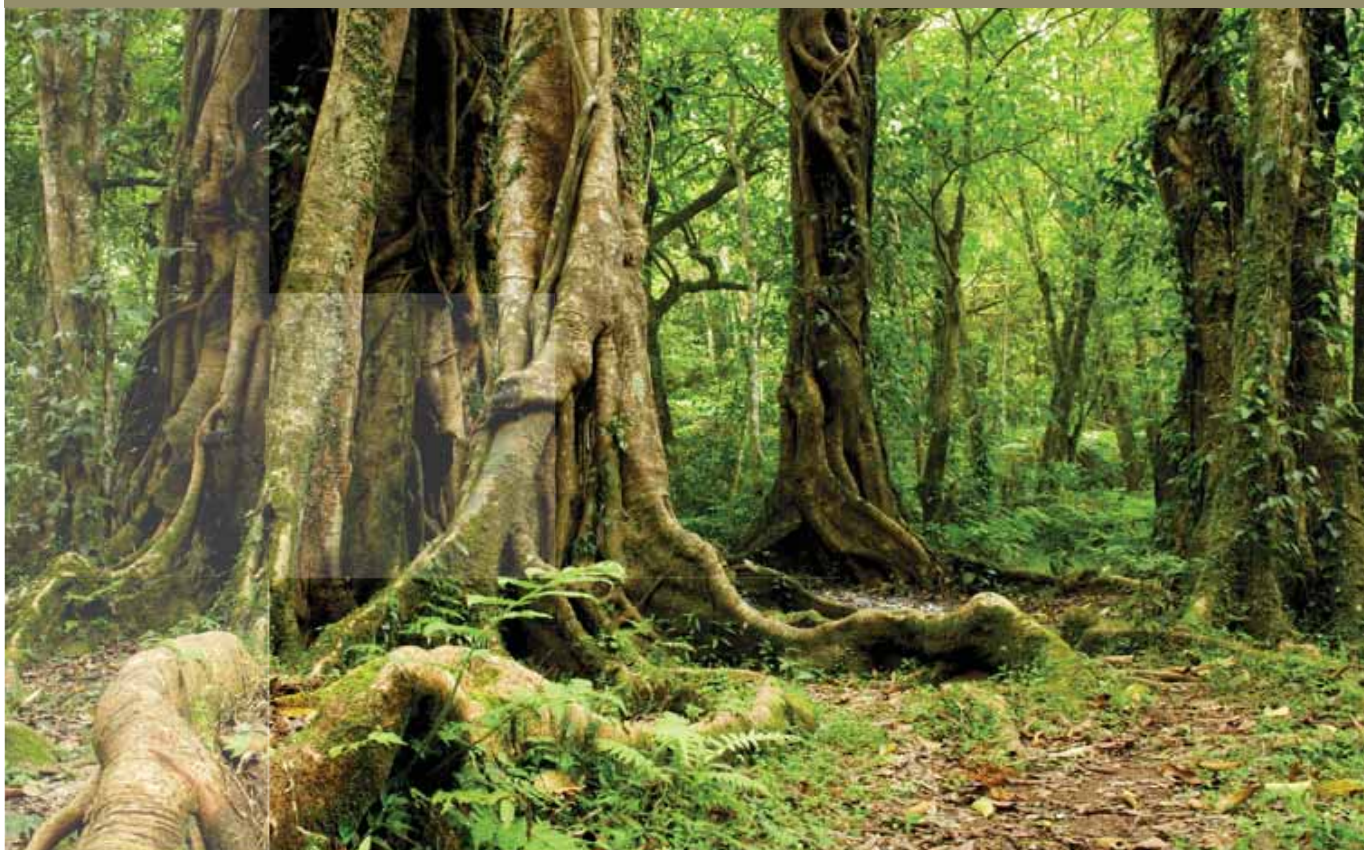

Sebagai upaya penterjemahan dari UU No. 2 Tahun 2002 mengenai kepolisian negara pasal 3, 14, 15, dan 36 serta perlunya intermediasi data, pelaporan, dan aspek teknis lainnya bagi perusahaan, masyarakat dan POLRI. Maka SUCOFINDO hadir sebagai pelopor dalam jasa Sistem Manajemen Pengamanan untuk memenuhi kebutuhan jaminan keamanan bagi komunitas bisnis dan masyarakat umum dengan memberikan kelengkapan data tentang kondisi keamanan yang dapat menjadi referensi nasional (national profile on risk fact or level) dan acuan system manajemen pengamanan industri dan pelayanan public. Dunia usaha membutuhkan aspek pengamanan guna menjamin keberlangsungan usaha, meningkatkan produktifitas, mencegah kerugian, membangun reputasi dan pencitraan perusahaan (corporate image), serta keunggulan daya saing.

MANAGEMENT SECURITY SYSTEM

As the interpretation of Law No. 2 Year 2002 concerning the national police, article 3, 14, 15, and 36 and the requirement of data intermedation, reporting, and other technical aspects for the company, community and POLRI, then SUCOFINDO is present as the pioneer in a Security Management System service to satisfy security warranty for business community and public by presenting range of data regarding security condition as national references (national profile on risk fact or level) and industry security management system and public service references. Business cycle requires security aspect to guarantee business survival, increase productivity, prevent from loss, build reputation and corporate image and competitive power superiority as well.

KEHUTANAN, KELAUTAN-PERIKANAN DAN LINGKUNGAN

SBU FORESTRY, MARINE-FISHERIES AND ENVIRONMENTAL

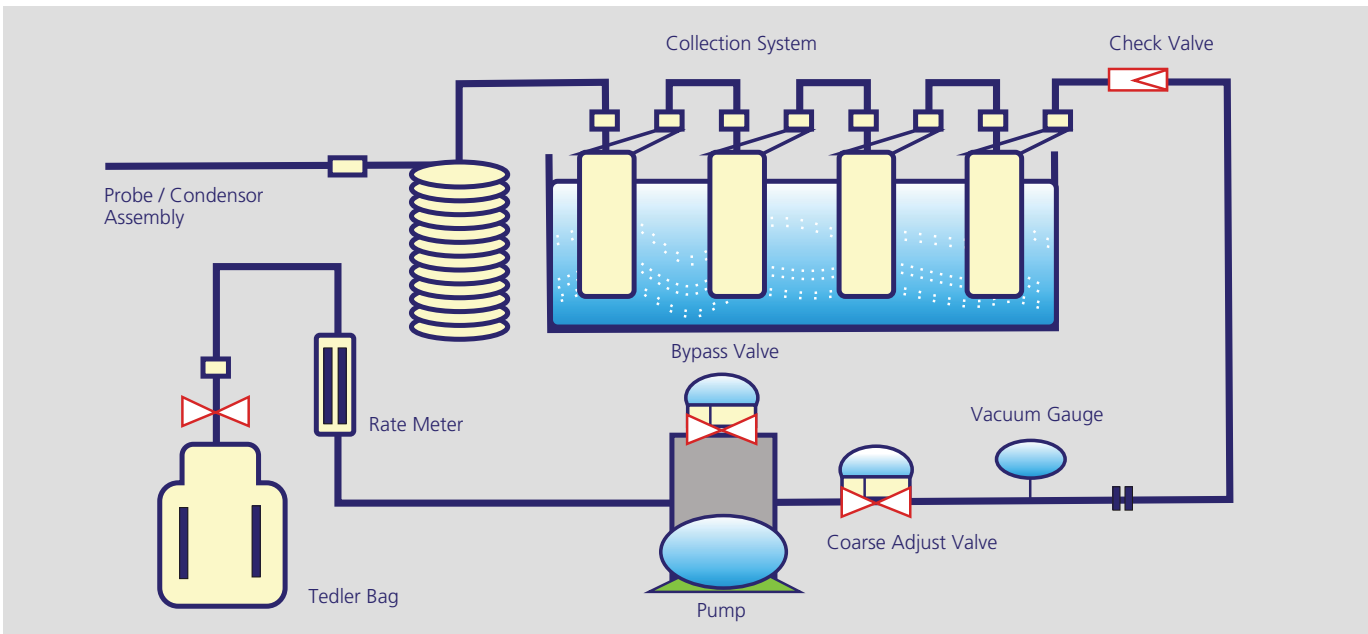

JASA LINGKUNGAN

SUCOFINDO menyadari tuntutan masyarakat internasional mengenai konsep pembangunan berkelanjutan (sustainable development) dimana diperlukan sistem pengendalian lingkungan menyeluruh dan terintegrasi melalui jasa pengelolaan pengendalian lingkungan terpadu berbasis teknologi informasi, pengawasan lingkungan (kegiatan usaha-kawasan lindung-kawasan industri-wilayah administratif dan lainnya), pengkajian lingkungan, audit lingkungan, system manajemen lingkungan, dan laboratorium lingkungan.

ENVIRONMENTAL SERVICES

SUCOFINDO is fully aware of the international society's demand for sustainable development which requires a comprehensive and integrated environmental control. This control can be achieved through management services with information technology bases, environmental monitoring in various areas (business activities in protected areas, in industrial areas, in administrative regions, etc), environmental research, environment audits, environmental management systems and environmental laboratories.

Labolatorium Lingkungan

Kemampuan analisa labolatorium SUCOFINDO untuk Jasa Lingkungan diantaranya analisa air bersih (kebutuhan bahan baku air minum, industri, pertanian, rumah sakit, dll), analisa air limbah, penentuan sludge dan limbah B-3 dengan metode dry basic atau toxyty test (TCLP, LD50,LC50), analisa udara ambient, analisa ura indoor, analisa udara emisi (sumber bergerak dan sumber tidak bergerak) serta analisa mikrobiologi.

Environmental Laboratories

The analytical Competence of SUCOFINDO laboratories for environmental services includes clean water analysis (the need of drinking water resource, industries, agricultures, hospitals, etc), water waste analysis, stipulation of "sludge" and B-3 waste with dry-based method or toxyty test (TCLP, LD50, LC50), ambient air analysis, indoor air analysis, emission air analysis (mobile or stable resources), micro-biology analysis.

JASA PENGKAJIAN KEHUTANAN

SUCOFINDO memberikan solusi kehutanan bagi pemerintah maupun swasta mulai dari tahapan perencanaan sampai dengan monitoring di lapangan diantaranya menyangkut pengkajian kinerja pengelolaan hutan dan industri hasil hutan.

FORESTRY ASSESSMENT

SUCOFINDO provides the solution of forestry problems, either for government or private institution, covering the stages from planning through to monitoring of the activities in the field. This monitoring includes activities such as the assessment of work performance in forestry management and forest product industries.

INSPEKSI DAN SUPERVISI

Meyakinkan penjual/pembeli bahwa transaksi dilakukan dengan baik serta mengurangi resiko yang mungkin timbul akibat ketidaksesuaian spesifikasi log maupun produk kayu serta memberikan jaminan legalitas log yang ditransaksikan.

SUPERVISION & INSPECTION

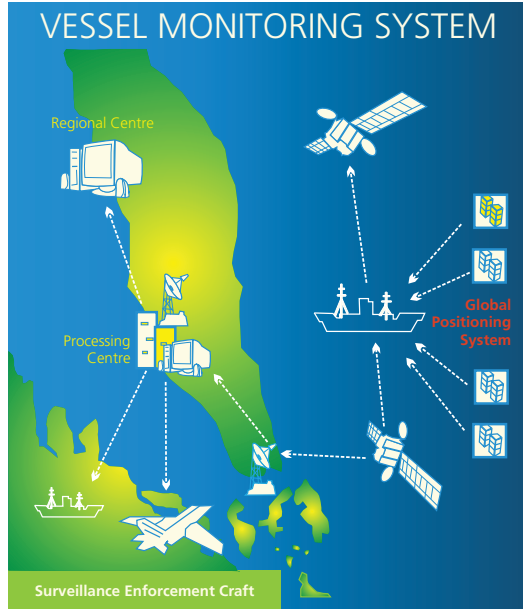

We provide services to assure both the sellers and the buyers that each transaction is well conducted. Thus reducing the loses which may occur caused by the non-comformity to log or wood products specifications. We also provide legal guarantees for the log transactions.

**PENGAWASAN KEHUTANAN**

Mendukung upaya penguatan kelembagaan pemerintah daerah guna menjalankan peran dan fungsinya dalam kewenangan pengelolaan sumber daya hutan.

FORESTRY MONITORING

To support the reinforcement efforts conducted by regional government in its role and function as the authority in managing forest resources.

Sistem Pemantauan Pergerakan Kapal (VMS)

VMS, menggunakan teknologi satelit untuk memantau kegiatan eksploitasi sumberdaya kelautan & perikanan sehingga dapat segera di ambil tindakan apabila menyalahi aturan yang telah ditetapkan.

VESSEL MONITORING SYSTEM (VMS)

The VMS, using satellite technology to monitor the exploitation activities of marine-fishery resources, will enable industries to take an urgent evasive action for some activities which are against the standard rules.

JASA KELAUTAN-PERIKANAN

SUCOFINDO memberikan solusi dalam peningkatan dan pemberdayaan sumber daya kelautan dan perikanan melalui Jasa Penataan Tata Ruang Pesisir dan Lautan, pembuatan atlas sumber daya, Survey dan Mapping, Remote Sensing dan GIS, manajemen pemberdayaan wilayah, pengembangan basis data pencemaran, pengelolaan sumber daya pesisir dan lautan, Monitoring, Control & Surveillance (MCS), verifikasi kapal penangkap ikan dan system pemantauan pergerakan kapal (VMS). Sistem Pemantauan Pergerakan Kapal (VMS)

VMS, menggunakan teknologi satelit untuk memantau kegiatan eksploitasi sumberdaya kelautan & perikanan sehingga dapat segera di ambil tindakan apabila menyalahi aturan yang telah ditetapkan.

MARINE-FISHERIES SERVICES

SUCOFINDO offers suggestions for increasing and maximizing the resources of the marine and fishing industries through marine and coastal mapping services, designation of marine resource maps, surveying and mapping, remote sensing and GIS, regional empowerment management, development of pollution database, Marine Coastal Resources Management and Planning (MCRP), Monitoring Control and Surveillance (MCS), fishing ship verification, Vessel Monitoring System (VMS). Vessel Monitoring System

The VMS, using satellite technology to monitor the exploitation activities of marine-fisheries resources, will enable industries to take an urgent evasive action for some activities which are against the standard rules.

MINYAK DAN GAS

SBU OIL AND GAS

SUCOFINDO memberikan jasa pemeriksaan kuantitas dan kualitas produk minyak, petrokimia dan gas serta jasa teknis yang berkaitan dengan 'oil loss control' dan 'oil blending'.

SUCOFINDO tidak memiliki kepentingan finansial atau kaitan dengan industri lain yang dapat mengganggu independensi yang merupakan landasan dari reputasi perusahaan dalam hal integritas, ketidakterbukaan dan mutu. Tim kami bekerja secara independen, bebas dari hubungan kepentingan dengan produsen, pembeli dan pedagang minyak/petrokimia, pemilik kapal serta pihak-pihak lainnya.

Pemeriksaan, Pengawasan dan Analisa

Pemeriksaan, pengawasan dan analisa selama transportasi, penyimpanan, produksi dan distribusi terhadap produk berikut :
Minyak mentah dan kondensat, Gas Cair, Hasil kilang minyak, Kimia dan petrokimia.

SUCOFINDO offers a wide range of quantity and quality control of petroleum, petrochemicals, gas and other technical services related to 'oil loss control' and 'oil blending'.

SUCOFINDO do not concern itself with other manufacturing and financial interests of other industries that can compromise its independence or mar the company's reputation for integrity, impartiality and quality. Our team is working independently, not associated with the interests of oil producers, buyers, oil/petrochemical traders, shipowners or other related parties.

Inspection, Control and Analysis

Control, supervision, and analysis during transportation, storing, production and distribution for the following products: Crude and condensed oil, Liquefied gas, Refined-oil products, Chemicals and petrochemicals

JASA-JASA KALIBRASI

Alat Ukur Statis

Jasa kalibrasi alat ukur statis seperti: tangki timbun, tangki kapal tangker, tangki kereta, tangki truk dan perawatan Automatic Tanks Gauges (ATG)

Alat Ukur Dinamis

Kalibrasi alat ukur dinamis, seperti: kalibrasi dan pemeriksaan meter-meter arus, kalibrasi dan perawatan meter prover termasuk meter arusnya, sistem pengukuran dan konsultasi untuk keperluan jual-beli

Jasa Lainnya

Loss study, audit dan control dalam transportasi serta cargo handling, Penyelidikan untuk keperluan asuransi, tuntutan ganti rugi dan claim adjuster, Pelatihan mengenai pengukuran dan transportasi teknol Oil and Gasy serta kualitas hidrokarbon, Penyediaan automatic sampler, Sample management (dispatch sample of dangerous goods)

CALIBRATION SERVICES

Static Measurement Services

Calibration service for static gauges, such as : buried tank, tanker tank, railway tank, truck tank, and maintenance of Automatic Tanks Gauges (ATG)

Dynamic Measurement Services

Calibration service for dynamic gauges, such as: calibration and control of current meters, calibration and maintenance of meter prover including its current meter and measuring system and consultation for trade requirement

Other Services

Loss study, audit and control in transportation and cargo handling, Observation to the interest of insurance, claim of loss and claim adjuster, Training on measuring and transportation technol Oil and Gasy and hydrocarbon quality, Providing automatic sampler, Sampler management (dispatch sample of dangerous goods)

MINERAL

SBU MINERALS

FULL RANGE OF SERVICES

SUCOFINDO menjadi pelopor dalam menyediakan jasa bagi industri pertambangan di Indonesia yang dikenal di seluruh dunia berkat adanya sertifikasi kualitas bahan tambang yang dihasilkan. Kami menyediakan berbagai jenis jasa bagi industri mineral meliputi studi eksplorasi, analisa pengeboran, pengawasan, survey kuantitas dan pengujian laboratories.

FULL RANGE OF SERVICES

SUCOFINDO is a leading service provider in the Indonesian coal industry that is known worldwide for its certification on mineral quality. We provide a full range of services to the mineral industry such as exploration studies, drilling analysis, inspections, quantity surveys and laboratory testing.

JASA MINERAL

Sampling, pengujian, dan pengeboran bijih
 Sampling dan pengujian lubang
 Sampling dan pengujian proses
 Pengamatan penyulingan
 Pengawasan Mutu dan Kuantitas

MINERALS SERVICES

*Core sampling, testing, and drilling
 Pit sampling and testing
 Process sampling and testing
 Refining witnessing
 Superintending-Quality and Quantity*

JASA BATUBARA

Pengawasan Mutu dan Kuantitas
 Sampling, pengujian dan pengeboran bijih
 Sampling dan pengujian lubang
 Sampling, pengujian dan konsultasi proses
 Studi kelayakan tambang
 Laboratorium lapangan
 Layanan manajemen mutu
 Layanan manajemen penyimpanan
 Konsultasi penggunaan akhir

COAL SERVICES

Superintending- Quality and Quantity
Core sampling, testing, and drilling
Pit sampling and testing
Process sampling and testing, and consultancy
Mine feasibility studies
Dedicated site laboratories
Quality management services
Stockpile management services
End use consultancy

JASA LAINNYA

- Pelatihan
- Konsultasi Manajemen lingkungan
- Kesehatan dan keselamatan kerja
- Uji teknis dan non-destruktif
- Survei-survei kelautan
- Pengujian bahan bakar dan Minyak Pelumas
- Survei penyimpanan dan kontrol jembatan timbang
- Manajemen Agunan

OTHER SERVICES

- Training
- Consultancy Environment management
- Occupational Health and safety
- Engineering and Non-Destructive Tests
- Marine Surveys
- Fuel and Lube Oil testing
- Stockpile survey and weigh-bridge control
- Collateral management
